

## ANNUAL HOUSE REPORT 2015

The new concreted area in front of the Golf Shop has provided us with much needed space to park the clubs motorised carts and still leave plenty of room for private carts and walkers. Also the covered in area is a popular area to shelter from the rain. Many thanks to our veteran golfers for supplying the tables.

The new railing along the front of the club and the tidying up of the Golf Shop area was much needed and improve the look of the club.

The next project we are looking at is more parking. There is no easy answer to provide the club with the amount extra car parks that's needed. We do have land near the residence that is not properly utilised but would cost a considerable amount of money to build. It has been mentioned several times we should look at building a second storey car park and we are looking at that option and we are currently going through the process of obtaining prices for both options.

The Hot Wok and Grill has renewed their contract for another three years with the club so we can look forward to Victor and Charlene's great food for a while yet.

I would like to take this opportunity to thank all the clubs staff for their friendly and courteous service over the past twelve months

House Chairman  
Graham Nelson
