

## ANNUAL HOUSE REPORT 2016

The issue of not enough car parks is still with us but we are making some progress. We are trialling a courtesy bus that takes some pressure off the parking on Friday and Saturday nights. We have a designer working on the existing car park near the residence to provide us with a plan to showing the maximum number of car parks we can get. The car park at the moment holds about twenty five vehicles when full so we would be looking to provide another fifteen or twenty to make it worthwhile spending the money.

We all agree that a above ground car park below the old pro shop would be the ideal solution to all our car parking problems but the cost could be up around the million dollars. Multi-Span a Brisbane company has given us a rough estimate of seven hundred and fifty thousand but as we all know the starting figure always goes up.

I would like to take this opportunity to thank all staff for their great service for the year and big thank you to Bill Quantrill for entertaining the clubs patrons on Friday nights.

Graham Nelson  
House Chairman
