Throughout 2020 the professionalism and dedication displayed by the club management and staff cannot be overstated. The club has achieved another great result under the guidance of the current management and committee. With numerous large projects already in the pipeline I feel continuity of the board is very important to our club at this time.

The current team has worked in consensus and made great headway during these difficult and uncertain times. Careful planning and good judgement has enabled the commencement of a number of critical projects for the benefit of all members, all of which are fully funded. Namely, the new kitchen is designed and will commence construction immediately. I have been directly involved in the design, planning and preparation of the improvements and increase to our car parking and the DA has been approved. And there are substantial changes to the 6<sup>th</sup> green and 7<sup>th</sup> fairway.

These projects will enhance the whole club and provide additional enjoyment for the members and guests on the golf course and in the club house. We are looking for more efficiencies, user friendly and updated systems and we are committed to providing quality products at reasonable prices. The Lady Golfers and Veterans added great value to the club and I thank them for their input and contributions. I look forward to supporting those groups even more in the future.

If elected I look forward to continuing my personal objectives and working closely with the Greens Committee, House committee and management team.

And I'd like to say thank you to all the members for their input and ongoing support of our great club.
